

Ninth International Workshop Modelling and Reasoning in Context (MRC)

IJCAI 2017, Melbourne, Australia, August 21, 2017

Paper Deadline MRC: June 05, 2017

Join us in Melbourne

MRC aims to bring together scientists and practitioners from different communities, both industry and academia, in order to study, understand, and explore issues surrounding context and to share challenges, techniques and success stories across different research and application areas in a cooperative, friendly environment.

MRC invites papers on different aspects of context, for example on modelling of and reasoning with context, or the role of context in application domains. Following the theme of IJCAI 2017, we particularly invite contributions on topics of autonomy and context. We also explicitly invite contributions from other fields of study in order to further trans- and interdisciplinary approaches.

A balanced mix of peer reviewed paper presentations, organised panel discussions, industry input, and open discussion time should make the workshop a dynamic and attractive venue.

Chairs

Jörg Cassens

IMAI, University of Hildesheim,
Germany

Rebekah Wegener

RWTH Aachen University, Germany
and Audaxi, Sydney, Australia

Anders Kofod-Petersen

Alexandra Institute,
Copenhagen, Denmark
and NTNU, Trondheim, Norway

Dates

Papers due	May 16
Notification	June 6
Camera-ready	June 20
MRC Workshop	August 19.-21. (one day, tbd)
